

COMPANY QUALITY POLICY

The Management of B L Shipway & Co Pty Ltd is committed to meet or exceed its customers requirements consistently and reliably in all respects at all times and to maintain its position as a leading quality provider in the Fluid Power Industry.

In order to achieve these objectives, we believe that adhering to the Quality Management System outlined by the Quality Standard ISO 9001:2000 provides the best means of achieving the optimum levels of quality.

Accordingly, the management of B L Shipway & Co Pty Ltd require all staff to comply with requirements of the Standard and to continually improve the effectiveness of the Company's Quality Management System.

Management will set the required criteria and will regularly monitor and support progress to ensure the achievement of the Company's Corporate Goals and Quality Objectives.

The Company's Management further acknowledges that these goals cannot be achieved without the total support of every member of the Company and therefore requires that all staff understand and are committed to the achievement of its Corporate Goals & Quality Objectives.

David Shipway
Managing Director
